## SAYING YOU DON'T LIKE GIN IS LIKE SAYING YOU DON'T LIKE SAUCE

All gin uses juniper as its main ingredient. After that there are very few limits to the hundreds of ingredients a distillery can use. The flavors in gin range from cucumber and rose (Hendrick's) to cedar wood (Vording's) to lemongrass and black pepper (Bombay Sapphire East). No two gins are alike, making the spirit very diverse in flavor.

## WHISKY OR WHISKEY?

In Scotland it is spelled whisky, but in Ireland they spell it whiskey with an extra 'e'. The difference comes from the translation from the Scottish and Irish Gaelic language.

Whiskey with an extra 'e' is also used in reference to American whiskey. The 'e' was brought to the United States in the 1700s by Irish immigrants and has been used ever since. Japan and Canada both follow the Scottish tradition and use whisky without the extra 'e'.
